The deck overhangs the SFR and connects to the land with the supporting beams.

Photos of the structures under the application for McKendry, Paul Francis; King, Gregory John and McKendry, Matthew Leo

The deck overhangs the SFR, includes planting and water tank beneath. The supporting beams attach to the SFR.

Access structures included in the application:

Step risers; and

Poles and wire handrails; and

Staircases with handrails.

The images below show the structures on the SFR.
