

| Location on public land | Special Feature or value | Potential effects of your activity on the feature or value (Positive or Adverse) | Methods to remedy, mitigate or avoid any adverse effects identified |
|-------------------------|---|--|--|
| Kaiteriteri MTB Park | Regenerative Wetlands Area | Introduction of more rubbish from customers and park users. | Consistent rubbish and recycling removal from the area, providing rubbish bins for our customers and informing other park users where to dispose of their rubbish, regular sweeps of the area to collect all rubbish not disposed of properly. |
| | Native plantings by DOC | Bicycle washing and servicing on-site, potential of run-off | Dedicated bike wash made up of a gravel filled pit with a mesh cover, use of Bio-degradable and Eco-friendly bike cleaners, lubricants and accessories. |
| | DOC Conservation area within Kaiteriteri MTB Park | Visual impact of the container storage set-up | Painting the containers, a neutral green colour to blend in with the surrounding native landscape, planting of native plants around the perimeter of the containers |
| | Mountain Bike Trails provided by the Kaiteriteri MTB Park | Usage of generator to produce power for the site | A switch to Solar power generation over time, attempt to try to find ways to store power over time, so the generator would only be needed minimally. |
| | | Damage to native plants during site set-up and during usage | Education of staff, providing knowledge of native species in park and around area (This will give the staff the ability to let other park users know of ways to minimize their effect on the park), clear and strict rules on proper park etiquette while within |
