**To:** Rebecca Beaumont **Subject:** Re: Application plan confirmation please

Hi Rebecca,

The map attached is the correct one, therefore can you please amend the area to 736 Ha.

Thank you kindly,  
Catherine

**Subject:** Application plan confirmation please

Hi Catherine,

Just one more further clarification before I meet with the rest of the team processing your application:

I have attached a copy of the map that I think that you wanted me to include as your plan for your application. This gives the area of the grazing as 736ha and includes the semi-circular piece at the confluence of the Landsborough River.

Your application currently states that the area applied for is 585ha. This matches an earlier location map that I have found, that does not include the area at the confluence and ends at the "Pivot Spur" just downstream of Clark Bluff.

Can you please confirm that I have the correct map for your application and if so, that you would like to amend your application to be applying to graze 736Ha?

Thanks,  
Rebecca
