

Wakatipu Ski Club – Rubbish and Recycling

- NZSki kindly provided for recycling containers for cans, bottles and cardboard. These can then be emptied as part of the NZSki recycling scheme.
- Members are asked to remove their rubbish from the club rooms (signage around the clubrooms).
- Limited rubbish bins are provided for any rubbish that can not be disposed of via recycling, removed by members or used for chicken food. This is taken down the mountain by Ski Club members to be disposed of at the Council facility.
- If there are leftover food scraps from the weekend family BBQ, these are removed by members to be fed to their chickens or composted.
