

Department of Conservation - Te Papa Atawhai - Permissions Advisor

The Wakatipu Ski Club has been amazing for our family of 4.

We have been in the area for 3 years & have been members for the last 2.

The ski club is an amazing asset to the basin families.

Bringing the community together within a common interest.

The club makes it very affordable for our family to be able to go skiing more often than we normally would. We preference Coronet over other mountains

- purely because of the club house & the ease of use and it's location.

-

We have made many valued friends within this club & hope to make many more.

We will certainly be members for many years to come.
