## LETTER TO RATEPAYERS

1 November 2006

Dear Landowner

I would like to advise you that Landcare Research New Zealand and The University of Waikato under contract with the Department of Conservation will soon be undertaking an updated survey of natural features such as forest, wetlands, gumlands and dunelands within the Pouto, Dargaville and Kai Iwi Lakes area of the Kaipara District. The natural features have been identified from recent aerial photography and are viewed from roadsides or (with the permission of landowners) from other viewpoints, recording information on their vegetation type and general condition. This survey is a continuation of work first undertaken by the Department in 1994.

In some cases, if these areas are not visible from the road, you may be contacted for permission to enter your land to enable a quick survey of the natural feature to gain information on the vegetation type and key plant species present.

Why are we doing this survey? Northland's natural features make a significant contribution to the character and quality of the region. Many of these areas are habitat for some of our increasingly rare plants and animals. The Department of Conservation and Kaipara District Council have existing information on many of the natural features in the District. However some of this information is now out of date, and therefore may no longer be accurate. This survey enables us to update our information and is an important reference point for assessing habitat changes over time and to assist landowners with management of their natural features.

The information gathered in this survey will be made available to anyone interested in natural features such as landowners, iwi, environmental groups, local bodies, and professionals.

The Kaipara District Council will be provided with the results of the survey upon completion.

With an increasing awareness in the value of natural features many residents and future residents to the District will have updated information describing the native plants and animals in the District. Information collected during this survey may be used to support cases made by private landowners to increase protection of forest or wetland on their land. These cases can be made to the Governments Biodiversity Condition and Advice Fund and the Northland Regional Council's Environment Fund. The Funds were set up to support landowners for the management and protection of natural areas, the information provided in this survey is an important tool in achieving these aims.

If you have any questions about the survey, please contact the Department of Conservation, (attention Wendy Holland or Peter Anderson) at Northland Conservancy Office in Whangarei, telephone (09) 430 2470; fax 09 430 2479 or email [wholland@doc.govt.nz](mailto:wholland@doc.govt.nz). or [panderson@doc.govt.nz](mailto:panderson@doc.govt.nz).

Thank you for your assistance

Chris Jenkins,  
Conservator Northland  
Department of Conservation

## DOC to note natural features

By Annette Lambly

The Department of Conservation is currently undertaking a survey of all-important natural habitat features within the Kaipara area.

DOC has contracted Landcare Research NZ and the University of Waikato to identify these important habitats and record them into an update database.

DOC co-ordinator Wendy Holland said the survey would include forests, wetlands, gumlands and dunelands.

The alluvial forest remnants along the Kaihu River, the dune lakes on the Pouto Peninsula and the Maitahi wetlands off State Highway 12 north west of Dargaville are examples of habitats which have been identified as significant, but there are perhaps other areas which have not been recorded she said.

The aim of the survey is to provide an updated database of baseline information for local bodies, environmental groups, iwi and landowners to work and plan from.

Ms Holland said landowners had been sent letters prior to the survey commencing in December asking for help in identifying any of these natural features.

Survey teams are now working in the Pouto, Dargaville and the Kai Iwi Lakes. A full project report is expected at the end of the year said Ms Holland.

The public is encouraged to contact the Department of Conservation on 094302470 if they have, or would like, further information.

# Appendix 3

## CATEGORIES OF THREAT

In this report the categories of threat are taken from the New Zealand Threat Classification developed by Molloy et al. (2002). This new system replaces Molloy and Davis (1992), the prioritising system used previously for threatened species work by the Department of Conservation. Below are Sections 3 and 7, which have been taken from Molloy et al. (2002) to explain the new species classification system.

### Classification structure and categories

This section describes each of the categories (shown in Figure 3)

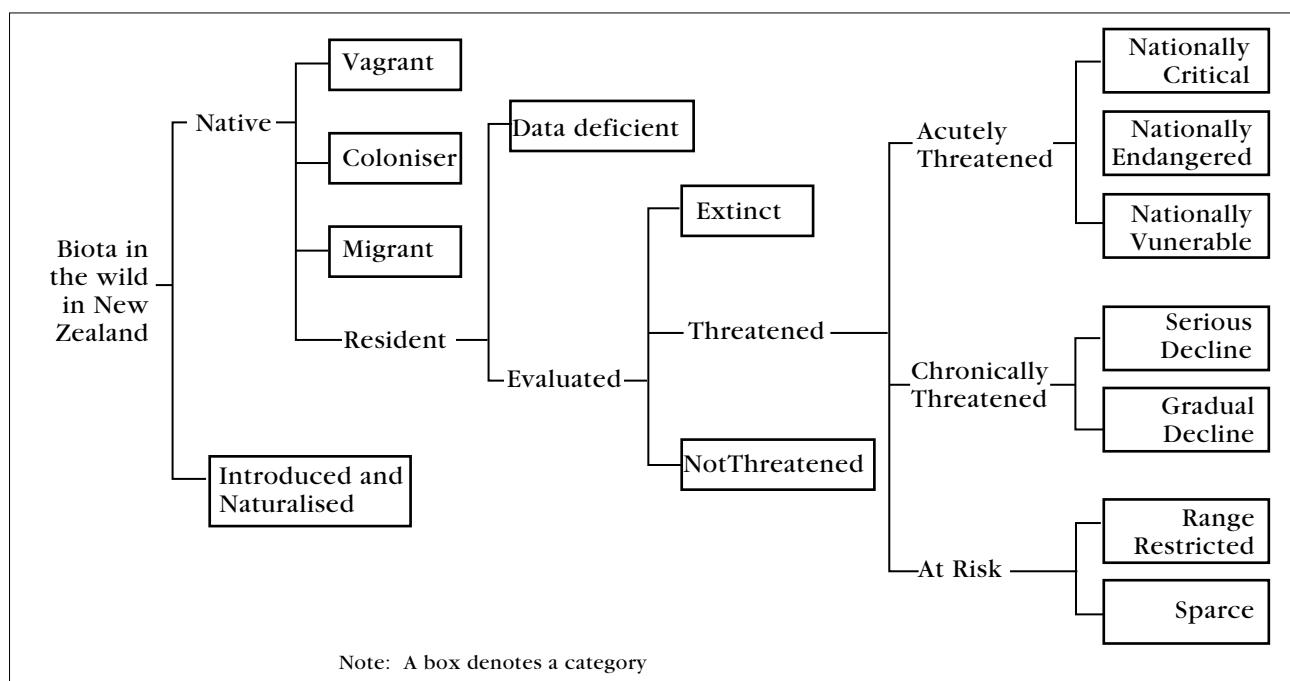

Figure 3. Structure of the New Zealand Threat Classification System

### ***Introduced and naturalised***

Introduced and Naturalised taxa are those that have become naturalised in the wild after being deliberately or accidentally introduced to New Zealand by human agency. If an Introduced and Naturalised taxon has an IUCN Red Listing in its country (or countries) of origin, the IUCN category and source of the listing are shown after the taxon's name in the New Zealand list. Current examples of this include the cress *Lepidium hyssopifolium* and the southern bell frog (*Litoria raniformis*), both of which are listed as Endangered in Australia; and the parma wallaby (*Macropus parma*), listed as Lower risk/Near threatened.

### ***Vagrant***

For the purposes of this document, vagrants are taxa that are found unexpectedly and rarely in New Zealand, and whose presence in our region is naturally transitory. These are taxa that do not establish themselves beyond their point of arrival because of reproductive failure or for specific ecological reasons. Examples include the red-kneed dotterel (*Erythrogonyx cinctus*) and the blue moon butterfly (*Hypolimnas bolina nerina*), both from Australia, and the spotted sawtail (*Prionurus maculatus*) from the tropical south-west Pacific Ocean. If a taxon in the Vagrant category has been listed in an IUCN Red List in its country of origin, the IUCN category and source of the listing are shown beside the taxon's name in the New Zealand list.

### ***Coloniser***

Colonisers are taxa that have arrived in New Zealand without direct or indirect help from humans and have been successfully reproducing in the wild for less than 50 years. Three examples are the Nankeen night heron (*Nycticorax caledonicus*), the scoliid wasp *Radumeris tasmaniensis* and the orchid *Cryptostylis subulata*. The IUCN Red List category and source of the listing is included where this exists.

### ***Migrant***

Taxa that predictably and cyclically visit New Zealand as part of their normal life cycle, but do not breed here are included in the category Migrant. Examples include the Arctic skua (*Stercorarius parasiticus*) and striped marlin (*Tetrapturus audax*). In contrast, taxa that either breed here and migrate beyond New Zealand during their life cycle, e.g., Chatham Island albatross (*Thalassarche eremita*), or taxa that are resident in New Zealand for most of their lives, such as longfin eels (*Anguilla dieffenbachii*), are not included in this category. The IUCN Red List category and source of the listing is included where this exists.

### ***Data deficient***

The amount of information available for assessing the threat of extinction is highly variable between taxa and groups of taxa. At one extreme there are taxa such as kakapo, *Gunnera hamiltonii* and *Tecomantle speciosa* where every wild individual is known, while at the other extreme there are taxa whose ecology and biology is virtually unknown (e.g. *Koeleria riguorum*, a recently described grass). Certain criteria and/or definitions must be met for a taxon to be listed in a category. Where information is so lacking that an assessment is not possible, the taxon is assigned to the Data Deficient category. If a taxon is listed in a category other than Data Deficient but confidence in the listing is low due to poor quality data, then the listing can be qualified with the letters DP (Data Poor) to indicate this.

### ***Extinct***

A taxon is listed as Extinct when there is no reasonable doubt, after repeated surveys in known or expected habitats at appropriate times (di-

urnal, seasonal and annual) and throughout the taxon's historic range, that the last individual has died. Examples include huia (*Heteralocha acutirostris*) and Adams's mistletoe (*Trilepidea adamsii*). Only taxa that have become extinct since 1840 are included in the list. Taxa that are extinct in the wild but occur in captivity or cultivation are not listed in this category. These are listed as Critically Endangered and are qualified with the letters EW (Extinct in the Wild).

### ***Threatened***

The threatened categories are grouped into three major divisions: 'Acutely Threatened', 'Chronically Threatened' and 'At Risk'.

#### ***Acutely Threatened***

The categories in the 'Acutely Threatened' division - Nationally Critical, Nationally Endangered and Nationally Vulnerable - equate with the IUCN categories of Critically Endangered, Endangered and Vulnerable. Taxa in these three categories are facing a very high risk of extinction in the wild, as defined by criteria that quantify:

- Total population size
- Area of occupancy
- Fragmentation of populations
- Declines in total population
- Declines in habitat area
- Predicted declines due to existing threats

Although the criteria (described in Section 6) measure similar population features as those in the IUCN Red List criteria, numerical limits and time-frames are tailored to suit New Zealand circumstances. These were set through a process of testing and refinement by the project team and as a result of feedback from New Zealand species experts. Criteria that attempt to predict declines due to possible future threats are not included because of the highly speculative nature of this type of assessment.

#### ***Chronically Threatened***

Taxa listed in either of the two categories in the 'Chronically Threatened' grouping (Serious Decline and Gradual Decline) also face extinction, but are buffered slightly by either a large total population, or a slow decline rate (see Section 6).

#### ***At Risk***

Taxa that do not meet the criteria for Acutely Threatened or Chronically Threatened, but have either restricted ranges or small scattered subpopulations, are listed in one of two categories (Range Restricted and Sparse) that fall under the division 'At Risk'. Although these taxa are not currently in decline, their population characteristics mean a new threat could rapidly

deplete their population(s). Range Restricted taxa either occur in a small geographic area (e.g., Three Kings Islands), are restricted to a particular habitat (e.g. geothermal areas), or require very specific substrates (e.g.

ultramafic rock), and for colonial breeders, have fewer than 10 subpopulations. Taxa that have naturally restricted ranges and taxa that have become restricted as a result of human activities are both included in this category. This is because both would face the same risk of extinction in the face of a new threat. The two

groups are differentiated by the use of a qualifier (see Section 4). Sparse taxa have very small, widely scattered populations, e.g., New Zealand spinach (*Tetragonia tetragonoides*). As with the Range Restricted category, taxa that are either naturally sparse or have become sparse as a result of human activities are included in this category.

#### ***Not threatened***

Taxa that are assessed and do not fit any of the Threatened categories are listed in the Not Threatened category.

### **Criteria for the Acutely Threatened and Chronically Threatened categories**

... a taxon must meet specific criteria to be listed in one of the Acutely Threatened or Chronically Threatened categories. The criteria for each category are set out below ...

#### ***Nationally Critical***

Very small population or a very high predicted decline

A taxon is Nationally Critical when available scientific evidence indicates that it meets any of the following three criteria:

1. The total population size is < 250 mature individuals.
2. Human influences have resulted in < 2 sub-populations and either:
  - a. < 200 mature individuals in the largest sub-population, or
  - b. the total area of occupancy is < 1 ha (0.01 km<sup>2</sup>).
3. There is a predicted decline of > 80% in the total population in the next 10 years due to existing threats.

#### ***Nationally Endangered***

A: Small population and moderate to high recent or predicted decline  
A taxon is **Nationally Endangered** when available scientific evidence indicates that it fits at least one Status criterion and one Trend criterion as follows:

##### **Status criteria**

1. The total population size is 250–1000 mature individuals.
2. There are < 5 sub-populations and either:
  - a. < 300 mature individuals in the largest sub-population, or
  - b. the total area of occupancy is < 10 ha (0. 1 km<sup>2</sup>).

##### **Trend criteria**

1. There has been a decline of > 30% in the total population or habitat area in the last 100 years.

2. There is a predicted decline of > 30% in the total population in the next 10 years due to existing threats.
- B: Small to moderate population and high recent or predicted decline

A taxon is **Nationally Endangered** when available scientific evidence indicates that it fits at least one Status criterion and one Trend criterion:

**Status criteria**

1. The total population size is 1000-5000 mature individuals.
2. There are < 15 sub-populations and either:
  - a. 300-500 mature individuals in the largest sub-population, or
  - b. the total area of occupancy is 10-100 ha (0.1-1 km<sup>2</sup>).

**Trend criteria**

1. There has been a decline of > 60% in the total population or habitat area in the last 100 years.
2. There is a predicted decline of > 60% in the total population in the next 10 years due to existing threats.

***Nationally Vulnerable***

Small to moderate population and moderate recent or predicted decline

A taxon is **Nationally Vulnerable** when scientific evidence indicates that it fits at least one Status criterion and one Trend criterion:

**Status criteria**

1. The total population size is 1000-5000 mature individuals.
2. There are < 15 sub-populations and either:
  - a. 300-500 mature individuals in the largest sub-population, or
  - b. the total area of occupancy is 10-100 ha (0.1-1 km<sup>2</sup>).

**Trend criteria**

1. There has been a decline of 30-60% in the total population or habitat area in the last 100 years and the total population or habitat area is still in decline.
2. There is a predicted decline of 30-60% in the total population in the next 10 years due to existing threats.

***Serious Decline***

- A. Moderate to large population and moderate to large predicted decline

A taxon is listed in **Serious Decline** when scientific evidence indicates that it fits at least one Status criterion and the Trend criterion:

**Status criteria**

1. The total population size is > 5000 mature individuals.

2. There are > 15 sub-populations and either:
  - a. > 500 mature individuals in the largest sub-population, or
  - b. the total area of occupancy is >100 ha (1 km2).

**Trend criterion**

1. There is a predicted decline of > 30% in the total population in the next 10 years due to existing threats.
- B. Small to moderate population and small to moderate predicted decline

A taxon is listed in **Serious Decline** when available scientific evidence indicates that it fits at least one Status criterion and the Trend criterion:

**Status criteria**

1. The total population size is < 5000 mature individuals.
2. There are < 15 sub-populations and either:
  - a. < 500 mature individuals in the largest sub-population, or
  - b. the total area of occupancy is < 100 ha (1 km2).

**Trend criterion**

1. There is a predicted decline of 5-30% in the total population in the next 10 years due to existing threats.

***Gradual Decline***

Moderate to large population and small to moderate decline.

A taxon is listed in **Gradual Decline** when available scientific evidence indicates that it fits at least one Status criterion and the Trend criterion:

**Status criteria**

1. The total population size is > 5000 mature individuals.
2. There are > 15 sub-populations and either:
  - a. > 500 mature individuals in the largest sub-population, or
  - b. the total area of occupancy is > 100 ha (1 km2).

**Trend criterion**

1. There is a predicted decline of 5-30% in the total population in the next 10 years due to existing threats, and the decline is predicted to continue beyond 10 years.

# Appendix 4

## CATEGORIES OF IMPORTANCE FOR GEOLOGICAL AND SOIL SITES

Ranking criteria for important geological sites and landforms in the Northland Region follow Kenny & Hayward (1996) and Arand et al. (1993).

Sites are listed under three levels of importance:

- (a) **International** - site of international scientific importance.
- (b) **National** - site of national scientific, educational or aesthetic importance.
- (c) **Regional** - site of regional scientific, educational or aesthetic importance.

The importance given to each site was assessed by those informants of Kenny and Hayward (1996) and Arand et al. (1993) who were familiar with the site.

# Appendix 5

## CHECKLIST OF PLANT SPECIES IN KAIPARA ECOLOGICAL DISTRICT (NORTHLAND CONSERVANCY)

This species list was compiled by the authors during a reconnaissance survey in the summer of 2006/2007. Other records, including those from Department of Conservation Sites of Specific Biological Interest (SSBI) database, Auckland Museum Herbarium (AK), and Allan Herbarium, Landcare Research (CHR) are referenced.

### 5.1 Indigenous Species

#### *GYMNOSPERMS*

<i>Agathis australis</i>	kauri
<i>Dacrycarpus dacrydioides</i>	kahikatea, white pine
<i>Dacrydium cupressinum</i>	rimu
<i>Phyllocladus trichomanoides</i>	tanekaha
<i>Podocarpus totara</i>	totara
<i>Prumnopitys taxifolia</i>	matai, black pine
<i>Prumnopitys ferruginea</i>	miro

#### *MONOCOT. TREES AND SHRUBS*

<i>Cordyline australis</i>	ti kouka, cabbage tree
<i>Cordyline banksii</i>	ti ngahere, forest cabbage tree

<i>Cordyline australis</i> X C. pumilio	(Cameron et al. 2001)
<i>Pbormium tenax</i>	harakeke, flax
<i>Rhopalostylis sapida</i>	nikau
<b>DICOT. TREES AND SHRUBS</b>	
<i>Ackama rostifolia</i>	makamaka
<i>Alectryon excelsus</i> ssp. <i>excelsus</i>	titoki
<i>Avicennia marina</i> ssp. <i>australasica</i>	mangrove, manawa
<i>Beilschmiedia tarairi</i>	taraire
<i>Beilschmiedia tawa</i>	tawa
<i>Brachyglottis repanda</i>	rangiora
<i>Carmichaelia australis</i>	common broom
<i>Carpodetus serratus</i>	putaputaweta, marbleleaf
<i>Coprosma acerosa</i>	sand coprosma
<i>Coprosma arborea</i>	mamangi, tree coprosma
<i>Coprosma areolata</i>	
<i>Coprosma crassifolia</i>	thick-leaved coprosma
<i>Coprosma grandifolia</i>	kanono
<i>Coprosma lucida</i>	shining karamu/kakaramu
<i>Coprosma macrocarpa</i> ssp. <i>minor</i>	coastal karamu
<i>Coprosma macrocarpa</i> × <i>C. robusta</i>	(J. Reid & P. Simpson)
<i>Coprosma parviflora</i>	
<i>Coprosma propinqua</i> ssp. <i>propinqua</i>	
<i>Coprosma propinqua</i> ssp. <i>propinqua</i> × <i>C. robusta</i>	AK 217494
<i>Coprosma propinqua</i> ssp. <i>propinqua</i> × <i>C. macrocarpa</i>

<i>Nertera setulosa</i>	AK 252651
<i>Nertera scapanioides</i>	AK 252391, AK 248061, AK 292354, AK 293926

<i>Oxalis exilis</i>	(Cameron et al. 2001)
<i>Oxalis rubens</i>	
<i>Peperomia urvilleana</i>	AK 252361
<i>Persicaria decipiens</i>	native willow weed
<i>Ranunculus amphitrichus</i>	water buttercup
<i>Ranunculus urvilleanus</i>	AK 282128, AK 210673, AK 224122
<i>Samolus repens</i>	sea primrose
<i>Sarcocornia quinqueflora</i>	glasswort
<i>Selliera radicans</i>	remuremu
<i>Solanum americanum</i>	
<i>Stellaria paviflora</i>	(Wright & Young 1991)
<i>Viola lyalli</i>	native violet
<i>Utricularia australis</i>	yellow bladderwort, AK 248055, AK 292387
<i>Utricularia delicatula</i>	AK 292388
<i>Utricularia dichotoma</i>	AK 241956
<i>Wahlenbergia littoralis</i> ssp. <i>vernicosa</i>	

## 5.2 Exotic Species

### **GYMNOSPERMS**

<i>Cupressus macrocarpa</i>	macrocarpa
<i>Pinus pinaster</i>	maritime pine
<i>Pinus radiata</i>	radiata pine

### **DICOT. TREES AND SHRUBS**

<i>Acacia paradoxa</i>	kangaroo wattle
<i>Acacia longifolia</i>	Sydney golden wattle
<i>Acacia mearnsii</i>	black wattle
<i>Acacia melanoxylon</i>	Tasmanian blackwood
<i>Acacia verticillata</i>	prickly moses, AK 120019
<i>Banksia integrifolia</i>	coastal banksia
<i>Berberis glaucocarpa</i>	barberry
<i>Betula pendula</i>	silver birch
<i>Chrysanthemoides monilifera</i>	boneseed
<i>Clerodendrum trichotomum</i>	AK 217175
<i>Cotoneaster glaucophyllus</i>	cotoneaster
<i>Crataegus monogyna</i>	hawthorn
<i>Elaeagnus × reflexa</i>	elaeagnus
<i>Erica baccans</i>	berry heath
<i>Erica caffra</i>	hedge heath, AK 120009
<i>Erica lusitanica</i>	Spanish heath
<i>Eriobotrya japonica</i>	loquat
<i>Erythrina × sykesii</i>	coral tree
<i>Hakea gibbosa</i>	downy hakea

<i>Hakea salicifolia</i>	willow-leaved hakea
<i>Hakea sericea</i>	prickly hakea, needlebush
<i>Ligustrum lucidum</i>	tree privet
<i>Ligustrum sinense</i>	Chinese privet
<i>Lupinus arboreus</i>	tree lupin
<i>Lycium ferocissimum</i>	boxthorn
<i>Paraserianthes lophantha</i>	brush wattle
<i>Pyracantha angustifolia</i>	firethorn, AK 239586
<i>Olea europaea</i> ssp. <i>europaea</i>	olive, CHR 214141, AK 215883
<i>Prunus persica</i>	peach
<i>Psoralea pinnata</i>	dally pine, cut-leaf psoralea
<i>Rosa</i> cv.	rose
<i>Rubus</i> sp. ( <i>R. fruticosus</i> agg.)	blackberry
<i>Salix cinerea</i>	grey willow
<i>Salix fragilis</i>	crack willow
<i>Senna septemtrionalis</i>	buttercup bush, CHR 276338
<i>Solanum mauritianum</i>	woolly nightshade
<i>Tibouchina urvilleana</i>	AK 215530
<i>Ulex europaeus</i>	gorse

### **MONOCOT TREES**

<i>Phoenix canariensis</i>	phoenix palm, AK 153623
----------------------------	-------------------------

### **FERNS**

<i>Azolla pinnata</i>	fern azolla
<i>Osmunda regalis</i>	royal fern

### **MONOCOT. LIANES**

<i>Asparagus asparagoides</i>	smilax, CHR 81437
<i>Asparagus scandens</i>	climbing asparagus

### **DICOT. LIANES**

<i>Calystegia silvatica</i>	great bindweed, CHR 214249
<i>Cassytha pubescens</i>	dodder laurel, AK 256213
<i>Clematis maximowicziana</i>	(Webb et al. 1989)
<i>Dipogon lignosus</i>	mile-a-minute, CHR 473710
<i>Jasminum polyanthum</i>	Jasmine
<i>Lonicera japonica</i>	Japanese honeysuckle
<i>Passiflora caerulea</i>	blue passionfruit
<i>Passiflora tripartita</i> var. <i>mollissima</i>	banana passionfruit
<i>Rubus ostryifolius</i>	AK 252696
<i>Rubus rosifolius</i>	AK 282117
<i>Senecio mikanioides</i>	German ivy
<i>Vinca major</i>	periwinkle, AK 119922
<i>Vitis vinifera</i>	grape
<i>Wisteria sinensis</i>	wisteria

**LYCOPODS AND PSILOPSIDS***Sellaginella kraussiana*

selaginella

**GRASSES**

<i>Agrostis capillaris</i>	browntop
<i>Agrostis stolonifera</i>	creeping bent, AK 143703, AK 252695
<i>Aira caryophyllea</i>	silvery hair grass
<i>Alopecurus pratensis</i>	meadow foxtail
<i>Ammophila arenaria</i>	marram
<i>Anthoxanthum odoratum</i>	sweet vernal
<i>Arundo donax</i>	giant reed grass
<i>Avena barbata</i>	slender oat
<i>Axonopus fissifolius</i>	narrow-leaved carpet grass
<i>Briza maxima</i>	large quaking grass
<i>Briza minor</i>	shivery grass
<i>Bromus arenarius</i>	ripgut brome, sand brome
<i>Bromus willdenowii</i>	praire grass
<i>Cortaderia jubata</i>	purple pamapas
<i>Cortaderia selloana</i>	pampas
<i>Cynodon dactylon</i>	Bermuda grass
<i>Cynosurus echinatus</i>	rough dogtail, AK 216750
<i>Dactylis glomerata</i>	cocksfoot
<i>Echinocloa crus-galli</i>	barnyard grass, AK 119869
<i>Glyceria declinata</i>	small sweet grass
<i>Glyceria maxima</i>	reed sweet grass
<i>Holcus lanatus</i>	Yorkshire fog
<i>Lagurus ovatus</i>	harestail
<i>Lolium perenne</i>	perennial ryegrass
<i>Panicum dichotomiflorum</i>	smooth witchgrass, AK 278751
<i>Parapholis strigosa</i>	strigose sicklegrass, AK 252694
<i>Paspalum dilatatum</i>	paspalum
<i>Paspalum distichum</i>	Mercer grass
<i>Paspalum urvillei</i>	Vasey grass
<i>Paspalum vaginatum</i>	saltwater paspalum
<i>Pennisetum clandestinum</i>	kikuyu
<i>Pennisetum macrourum</i>	African feather grass, AK 227138, AK 252712, AK 205952
<i>Phalaris aquatica</i>	AK 143702, AK 227138
<i>Phleum pratense</i>	timothy
<i>Poa annua</i>	annual meadow grass
<i>Poa trivialis</i>	rough-stalked meadow grass, AK 218010
<i>Polypogon fugax</i>	
<i>Polypogon monspeliensis</i>	beard grass, AK 276721, AK 35459, AK 99168
<i>Rytidosperma penicillatum</i>	danthonia
<i>Rytidosperma racemosum</i>	(Cameron et al. 2001)

<i>Schedonorus phoenix</i>	tall fescue
<i>Setaria gracilis</i>	knotroot bristlegrass, AK 276722
<i>Setaria palmifolia</i>	plam grass, AK 222555
<i>Setaria pumila</i>	yellow bristlegrass, AK 277088
<i>Spartina alterniflora</i>	spartina
<i>Sporobolus africanus</i>	ratstail
<i>Stenotaphrum secundatum</i>	buffalo grass
<i>Vulpia myuros</i> ssp. <i>myuros</i>	hair grass
<i>Zizania latifolia</i>	Manchurian wild rice

### **SEDGES**

<i>Carex divulsa</i>	grey sedge
<i>Carex longii</i>	
<i>Carex ovalis</i>	oval sedge
<i>Cyperus brevifolius</i>	globe sedge
<i>Cyperus congestus</i>	<i>purple umbrella</i> sedge
<i>Cyperus eragrostis</i>	umbrella sedge
<i>Cyperus polystachyos</i>	
<i>Isolepis marginata</i>	little club sedge, AK 216744
<i>Isolepis sepulcralis</i>	AK 252715
<i>Rhynchospora globularis</i>	globebeak sedge, AK 251997
<i>Schoenoplectus californicus</i>	American bullrush, AK 246002, AK 92826, AK 250304, AK 232860, AK 224056, AK 224055

### **RUSHES**

<i>Juncus acutus</i>	sharp rush
<i>Juncus articulatus</i>	jointed rush
<i>Juncus bufonius</i>	toad rush
<i>Juncus bulbosus</i>	bulbous rush
<i>Juncus capitatus</i>	dwarf rush, AK 151481, AK 298035, AK 266382
<i>Juncus dichotomus</i>	forked rush, AK 252731, AK 252584
<i>Juncus effusus</i>	soft rush
<i>Juncus fockei</i>	(Ogle in Wright & Young 1991)
<i>Juncus microcephalus</i>	AK 35479, AK 35507
<i>Juncus sonderianus</i>	AK 251998, AK 298851
<i>Juncus tenuis</i>	track rush

### **MONOCOT. HERBS (other than orchids, grasses, sedges and rushes)**

<i>Agapanthus praecox</i>	agapanthus
<i>Aristea ecklonii</i>	aristea (Cameron et al. 2001)
<i>Arum italicum</i>	Italian arum, AK 232792
<i>Canna indica</i>	canna lily
<i>Ceratophyllum demersum</i>	hornwort
<i>Crocosmia × crocosmiiflora</i>	montbretia
<i>Dracunculus vulgaris</i>	stink lily (Cameron et al. 2001)

<i>Egeria densa</i>	lakeweed (Wells et al. 2007)
<i>Elodea canadensis</i>	Canadian pondweed (Tanner et al. 1986)
<i>Hedychium gardnerianum</i>	kahili ginger; wild ginger
<i>Ixia polystachya</i>	variable ixia, AK 35497
<i>Kniphofia uvaria</i>	red hot poker
<i>Lagarosiphon major</i>	oxygen weed (Wells et al. 2007)
<i>Lilium formosanum</i>	Formosan lily
<i>Otellia ovalifolia</i>	swamp lily (Tanner et al. 1986)
<i>Spirodela punctata</i>	purple-backed duckweed (Tanner et al. 1986)
<i>Tradescantia fluminensis</i>	tradescantia
<i>Watsonia meria</i> ssp. <i>bulbifera</i>	watsonia, AK 35463
<i>Zantedeschia aethiopica</i>	arum lily

### **COMPOSITE HERBS**

<i>Achillea millefolium</i>	yarrow
<i>Ageratina adenophora</i>	Mexican devil
<i>Ageratina riparia</i>	mistflower
<i>Arctotheca calendula</i>	calendula AK 220800
<i>Arctotis stoechadifolia</i>	AK 271117
<i>Aster subulatus</i>	sea aster
<i>Bidens frondosa</i>	beggar's ticks
<i>Carduus acanthoides</i>	plumeless thistle, AK 219403
<i>Carduus nutans</i>	nodding thistle, CHR 212026
<i>Carthamus lanatus</i>	saffron thistle, AK 217798
<i>Cirsium arvense</i>	Californian thistle
<i>Cirsium vulgare</i>	Scotch thistle
<i>Conyza albida</i>	fleabane
<i>Conyza bonariensis</i>	wavy-leaved fleabane, AK 235017
<i>Conyza parva</i>	smooth fleabane, AK 203223
<i>Crepis capillaris</i>	hawksbeard
<i>Gamochaeta simplicicaulis</i>	(Cameron et al. 2001)
<i>Hypochoeris glabra</i>	smooth catsear, AK 252, AK 252350, AK 252728
<i>Hypochoeris radicata</i>	catsear
<i>Leontodon taraxacoides</i>	hawkbit
<i>Senecio bipinnatisecus</i>	Australian fireweed
<i>Senecio diaschides</i>	AK 218148
<i>Senecio jacobaea</i>	ragwort
<i>Senecio sylvaticus</i>	wood groundsel
<i>Sonchus asper</i>	prickly sowthistle
<i>Sonchus oleraceus</i>	sowthistle, puha
<i>Taraxacum officinale</i>	dandelion
<i>Tolpis barbata</i>	European milkwort, AK 205948
<i>Vellereophyton dealbatum</i>	white cudweed, AK 252356

**DICOT. HERBS (other than composites)**

<i>Alisma plantago-aquatica</i>	water speedwell
<i>Alternanthera philoxeroides</i>	alligator weed
<i>Anagallis arvensis</i>	scarlet pimpernel
<i>Apium nodiflorum</i>	water celery
<i>Aptenia cordifolia</i>	rock rose, AK 119956
<i>Atriplex prostrata</i>	sea orache
<i>Blackstonia perfoliata</i>	yellow-wort
<i>Callitricha stagnalis</i>	starwort
<i>Cardamine flexuosa</i>	wavy bittercress, AK 218226
<i>Carpobrotus edulis</i>	adventive iceplant
<i>Centaurium erythraea</i>	centaury
<i>Cerastium glomeratum</i>	annual mouse-ear chickweed
<i>Chenopodium ambrosioides</i>	Mexican tea, AK 235014, AK 119914
<i>Chenopodium murale</i>	nettle-leaved fathen, AK 297716
<i>Ciclospermum leptophyllum</i>	slender celery, AK 215974
<i>Coronopus didymus</i>	twincress, AK 262953
<i>Crassula multicava</i>	fairy crassula, AK 271800
<i>Daucus carota</i>	wild carrot
<i>Epilobium tetragonum</i>	AK 219372, AK 219373, AK 252672
<i>Euphorbia peplus</i>	milkweed
<i>Foeniculum vulgare</i>	fennel
<i>Galium aparine</i>	cleavers
<i>Galium palustre</i>	marsh bedstraw, AK 217523
<i>Geranium molle</i>	dovesfoot cranesbill
<i>Hypericum androsaemum</i>	tutsan
<i>Kennedia rubicunda</i>	dusky coral pea, AK 223804, AK 233991
<i>Limonium sinuatum</i>	blue statice, AK 201384
<i>Linum bienne</i>	pale flax
<i>Lotus pedunculatus</i>	lotus
<i>Lotus suaveolens</i>	hairy birdsfoot trefoil
<i>Ludwigia palustris</i>	water purslane
<i>Ludwigia peploides</i> ssp. <i>montevidensis</i>	water primrose
<i>Lytthrum hyssopifolia</i>	purple loosestrife
<i>Lytthrum junceum</i>	rose loosestrife, AK 141414
<i>Melilotus indicus</i>	King Island melilot
<i>Mentha pulegium</i>	pennyroyal
<i>Modiola caroliniana</i>	creeping mallow
<i>Myosotis discolor</i>	grassland forget-me-not, AK 276723
<i>Myosotis laxa</i> var. <i>caespitosa</i>	forget-me-not
<i>Nasturtium officinale</i>	watercress
<i>Oenanthe pimpinelloides</i>	parsley dropwort
<i>Ornithopus pinnatus</i>	yellow seradella
<i>Ornithopus sativus</i>	serradella, AK 252448
<i>Orobanche minor</i>	broomrape
<i>Oxalis pes-caprae</i>	Bermuda buttercup, AK 120001

<i>Parentucellia viscosa</i>	tarweed
<i>Petroselinum crispum</i>	parsley, AK 151620
<i>Phytolacca octandra</i>	inkweed
<i>Plantago australis</i>	swamp plantain
<i>Plantago coronopus</i>	buck's horn plantain
<i>Plantago lanceolata</i>	narrow-leaved plantain
<i>Plantago major</i>	broad-leaved plantain
<i>Polycarpon tetraphyllum</i>	allseed
<i>Polygonum hydropiper</i>	water pepper
<i>Polygonum lapathifolium</i>	pale willow weed, AK 299823
<i>Polygonum punctatum</i>	American willow weed
<i>Polygonum strigosum</i>	spotted knotcord
<i>Prunella vulgaris</i>	selfheal
<i>Ranunculus repens</i>	creeping buttercup
<i>Ranunculus sardous</i>	hairy buttercup
<i>Ranunculus sceleratus</i>	celery-leaved buttercup, AK 119870, AK2 76724, AK 179261, AK 299170
<i>Rumex acetosella</i>	sheep's sorrel
<i>Rumex conglomeratus</i>	clustered dock
<i>Rumex frutescens</i>	Argentine dock, AK 218266, AK 252670
<i>Rumex obtusifolius</i>	broad leaved dock
<i>Sagina subulata</i>	<i>Irish moss</i> , AK 252371
<i>Sida rhombifolia</i>	paddy lucerne, AK 235200, AK 251296
<i>Silene gallica</i>	catchfly
<i>Sison amomum</i>	stone parsley, AK 153652
<i>Solanum nigrum</i>	black nightshade
<i>Soliva anthemifolia</i>	AK 90894
<i>Soliva sessilis</i>	Onehunga weed, AK 140756
<i>Spergularia rubra</i>	sand spurrey, AK 35457
<i>Trifolium repens</i>	white clover
<i>Trifolium resupinatum</i>	reversed clover, AK 219455
<i>Tropaeolum majus</i>	garden nasturtium
<i>Utricularia gibba</i>	(Wells et al. 2007)
<i>Verbena bonariensis</i>	purpletop
<i>Verbena littoralis</i>	blue vervain, AK 119957
<i>Verbena officinalis</i>	common vervain
<i>Verbena rigida</i>	creeping vervain, AK 211034
<i>Veronica arvensis</i>	field speedwell
<i>Veronica plebeia</i>	Australian speedwell (Cameron et al. 2001)
<i>Vicia sativa</i>	vetch
<i>Vinca major</i>	periwinkle

# Appendix 6

## COMMON PLANT NAMES USED IN TEXT

### 6.1 Native species

akepiro	<i>Olearia furfuracea</i>
arching clubmoss	<i>Lycopodiella cernua</i>
arrow grass	<i>Triglochin striata</i>
bog rush	<i>Schoenus pauciflorus</i>
bracken	<i>Pteridium esculentum</i>
burr-reed	<i>Sparganium subglobosum</i>
coastal karamu	<i>Coprosma macrocarpa</i> ssp. <i>minor</i>
coastal toetoe	<i>Cortaderia splendens</i>
common broom	<i>Carmichaelia australis</i>
domed sun orchid	<i>Thelymitra tholiformis</i>
duckweed	<i>Lemna minor</i>
fierce lancewood	<i>Pseudopanax ferox</i>
fivefinger	<i>Pseudopanax arboreu</i>
forked sundew	<i>Drosera binata</i>
giant umbrella sedge	<i>Cyperus ustulatus</i>
glasswort	<i>Sarcocornia quinqueflora</i>
gully tree fern	<i>Cyathea cunninghamii</i>
hangehange	<i>Geniostoma rupestre</i> var. <i>ligustrifolium</i>
harakeke	<i>Pbormium tenax</i>
houhere	<i>Hoberia populnea</i>
kahakaha	<i>Collospermum hastatum</i>
kahikatea	<i>Dacrycarpus dacrydioides</i>
kaikomako	<i>Pennantia corymbosa</i>
kanuka	<i>Kunzea ericoides</i>
karaka	<i>Corynocarpus laevigatus</i>
karamu	<i>Coprosma robusta</i>
karo	<i>Pittosporum crassifolium</i>
kauri	<i>Agathis australis</i>
kauri grass	<i>Astelia trinervia</i>
kawakawa	<i>Macropiper excelsum</i> ssp. <i>excelsum</i> f. <i>excelsum</i>
kiekie	<i>Freycinetia banksii</i>
knobby clubbrush	<i>Ficinia nodosa</i>
kohekohe	<i>Dysoxylum spectabile</i>
kohuhu	<i>Pittosporum tenuifolium</i>
korokio	<i>Corokia cotoneaster</i>
kowhai	<i>Sophora microphylla</i> s.l.

kowharawhara	<i>Astelia banksii</i>
kumara	<i>Ipomoea batatas</i>
kumeraho	<i>Pomaderris kumeraho</i>
kuta	<i>Schoenoplectus tabernaemontani</i>
lady fern	<i>Diplazium australe</i>
ladies' tresses	<i>Spiranthes novae-zelandiae</i>
lancewood	<i>Pseudopanax crassifolius</i>
mahoe	<i>Melicytus ramiflorus</i> ssp. <i>ramiflorus</i>
mamaku	<i>Cyathea medullaris</i>
mamangi	<i>Coprosma arborea</i>
manatu	<i>Plagianthus regius</i>
mangeao	<i>Litsea calicaris</i>
mangemange	<i>Lygodium articulatum</i>
mangrove	<i>Avicennia marina</i> ssp. <i>australisica</i>
manuka	<i>Leptospermum scoparium</i>
mapau	<i>Myrsine australis</i>
marsh fern	<i>Thelypteris confluens</i>
matai	<i>Prumnopitys taxifolia</i>
mingimingi	<i>Leucopogon fasciculatus</i>
miro	<i>Stachyphitys ferruginea</i>
narrow-leaved maire	<i>Nestegis montana</i>
native iceplant	<i>Disphyma australe</i>
native willow weed	<i>Persicaria decipiens</i>
nikau	<i>Rhopalostylis sapida</i>
northern rata	<i>Metrosideros robusta</i>
New Zealand jasmine	<i>Parsonsia heterophylla</i>
New Zealand spinach	<i>Tetragonia implexicoma</i>
oioi	<i>Apodasmia similis</i>
pale rush	<i>Juncus pallidus</i>
pate	<i>Schefflera digitata</i>
pigeonwood	<i>Hedycarya arborea</i>
pingao	<i>Desmoschoenus spiralis</i>
poataniwha	<i>Melicope simplex</i>
pohuehue	<i>Muehlenbeckia complexa</i>
pohutukawa	<i>Metrosideros excelsa</i>
ponga	<i>Cyathea dealbata</i>
prickly heath	<i>Leptecophylla juniperina</i> ssp. <i>juniperina</i>
pukatea	<i>Laurelia novae-zelandiae</i>
puriri	<i>Vitex lucens</i>
putaputaweta	<i>Carpodetus serratus</i>
rangiora	<i>Brachyglottis repanda</i>

rasp fern	<i>Doodia australis</i>
raupo	<i>Typha orientalis</i>
remuremu	<i>Selliera radicans</i>
rengarenga	<i>Arthropodium cirratum</i>
rewarewa	<i>Knightia excelsa</i>
ring fern	<i>Paesia scaberula</i>
rimu	<i>Dacrydium cupressinum</i>
rohutu	<i>Lophomyrtus obcordata</i>
round-leaved coprosma	<i>Coprosma rotundifolia</i>
saltmarsh ribbonwood	<i>Plagianthus divaricatus</i>
sand coprosma	<i>Coprosma acerosa</i>
sand wind grass	<i>Lachnagrostis billardierei</i>
sand sedge	<i>Carex pumila</i>
sand spike-sedge	<i>Eleocharis neozelandica</i>
sea primrose	<i>Samolus repens</i>
sea rush	<i>Juncus kraussii</i> ssp. <i>australiensis</i>
shining karamu	<i>Coprosma lucida</i>
shore bindweed	<i>Calystegia soldanella</i>
shore tussock	<i>Austrostipa stipoides</i>
spinifex	<i>Spinifex sericeus</i>
small-leaved mahoe	<i>Melicytus micranthus</i>
small-leaved milk tree	<i>Streblus heterophyllus</i>
sneezeweed	<i>Centipeda minima</i> ssp. <i>minima</i>
sphagnum	<i>Sphagnum cristatum</i>
supplejack	<i>Ripogonum scandens</i>
swamp coprosma	<i>Coprosma tenuicaulis</i>
swamp kioiko	<i>Blechnum minus</i>
swamp maire	<i>Syzygium maire</i>
swamp millet	<i>Isachne globosa</i>
tanekaha	<i>Phyllocladus trichomanoides</i>
tangle fern	<i>Gleichenia dicarpa</i>
taraire	<i>Beilschmiedia tarairi</i>
tarata	<i>Pittosporum eugenoides</i>
tauhinu	<i>Ozothamnus leptophyllus</i>
tawa	<i>Beilschmiedia tawa</i>
tawapou	<i>Pouteria costata</i>
thick-leaved coprosma	<i>Coprosma crassifolia</i>
ti kouka	<i>Cordyline australis</i>
titoki	<i>Alectryon excelsus</i> ssp. <i>excelsus</i>
toetoe	<i>Cortaderia fulvida</i>
toiwiki	<i>Gabnia xanthocarpa</i>
totara	<i>Podocarpus totara</i>
towai	<i>Weinmannia silvicola</i>
true maidenhair	<i>Adiantum aethiopicum</i>
water buttercup	<i>Ranunculus amphitrichus</i>
water fern	<i>Histiopteris incisa</i>
weeping mapou	<i>Myrsine divaricata</i>

wharangi	<i>Melicope ternata</i>
whau	<i>Entelea aborescens</i>
wheki	<i>Dicksonia squarrosa</i>
white maire	<i>Nestegis lanceolata</i>
willow-leaved maire	<i>Mida salicifolia</i>
wire rush	<i>Empodisma minus</i>
yellow bladderwort	<i>Utricularia australis</i>

## 6.2 Adventive species

alligator weed	<i>Alternanthera philoxeroides</i>
adventive iceplant	<i>Carpobrotus edulis</i>
berry heath	<i>Erica baccans</i>
black wattle	<i>Acacia mearnsii</i>
blackberry	<i>Rubus</i> sp. ( <i>R. fruticosus</i> agg.)
boneseed	<i>Chrysanthemoides monilifera</i>
boxthorn	<i>Lycium ferocissimum</i>
brush wattle	<i>Paraserianthes lophantha</i>
buffalo grass	<i>Stenotaphrum secundatum</i>
Canadian pondweed	<i>Elodea canadensis</i>
catsear	<i>Hypochoeris radicata</i>
Chinese privet	<i>Ligustrum sinense</i>
cleavers	<i>Galium aparine</i>
climbing asparagus	<i>Asparagus scandens</i>
creeping bent	<i>Agrostis stolonifera</i>
creeping buttercup	<i>Ranunculus repens</i>
dally pine	<i>Psoralea pinnata</i>
downy hakea	<i>Hakea gibbosa</i>
Formosan lily	<i>Lilium formosanum</i>
gorse	<i>Ulex europaeus</i>
hairy birdsfoot trefoil	<i>Lotus suaveolens</i>
harestail	<i>Lagurus ovatus</i>
hornwort	<i>Ceratophyllum demersum</i>
Japanese honeysuckle	<i>Lonicera japonica</i>
kikuyu	<i>Pennisetum clandestinum</i>
lakeweed	<i>Egeria densa</i>
lotus	<i>Lotus pedunculatus</i>
Manchurian wild rice	<i>Zizania latifolia</i>
maritime pine	<i>Pinus pinaster</i>
marram	<i>Ammophila arenaria</i>
Mercer grass	<i>Paspalum distichum</i>
Mexican devil	<i>Ageratina adenophora</i>
mistflower	<i>Ageratina riparia</i>
montbretia	<i>Crocosmia X crocosmiiflora</i>
prickly hakea	<i>Hakea sericea</i>
oval sedge	<i>Carex ovalis</i>
oxygen weed	<i>Lagarosiphon major</i>
pampas	<i>Cortaderia selloana</i>

paspalum	<i>Paspalum dilatatum</i>
purple umbrella sedge	<i>Cyperus congestus</i>
quaking grass	<i>Briza minor</i>
radiata pine	<i>Pinus radiata</i>
ragwort	<i>Senecio jacobaea</i>
royal fern	<i>Osmunda regalis</i>
saltwater paspalum	<i>Paspalum vaginatum</i>
sharp rush	<i>Juncus acutus</i>
soft rush	<i>Juncus effusus</i>
Spanish heath	<i>Erica lusitanica</i>
sweet grass	<i>Glyceria spp.</i>
sweet vernal	<i>Anthoxanthum odoratum</i>
Sydney golden wattle	<i>Acacia longifolia</i>
tall fescue	<i>Schedonorus phoenix</i>
tarweed	<i>Parentucellia viscosa</i>
tradescantia	<i>Tradescantia fluminensis</i>
tree lupin	<i>Lupinus arboreus</i>
tree privet	<i>Ligustrum lucidum</i>
umbrella sedge	<i>Cyperus eragrostis</i>
water celery	<i>Apium nodiflorum</i>
water pepper	<i>Polygonum hydropiper</i>
water primrose	<i>Ludwigia peploides</i>
water purslane	<i>Ludwigia palustris</i>
white clover	<i>Trifolium repens</i>
wild ginger	<i>Hedychium gardnerianum</i>
willow-leaved hakea	<i>Hakea salicifolia</i>
woolly nightshade	<i>Solanum mauritianum</i>
Yorkshire fog	<i>Holcus lanatus</i>

## Appendix 7

### CHECKLIST OF FAUNA IN KAI PARA ECOLOGICAL DISTRICT (NORTHLAND CONSERVANCY)

Checklist compiled by the authors. Additional records from Ornithological Society of New Zealand (OSNZ), Crockett (comp.) (1992–2004), Wells et al. (2007), and R. Parrish (pers. comm.).

#### 7.1 Mammals - native

*Arctocephalus forsteri* New Zealand fur seal; kekeno

#### 7.2 Mammals - introduced (feral)

*Erinaceus europaeus* European hedgehog

*Felis catus* cat

<i>Lepus europaeus</i>	brown hare
<i>Mus musculus</i>	house mouse
<i>Mustela erminea</i>	stoat
<i>Mustela furo</i>	ferret
<i>Mustela nivalis</i>	weasel
<i>Oryctolagus cuniculus</i>	European rabbit
<i>Rattus norvegicus</i>	Norway rat
<i>Rattus rattus</i>	ship rat
<i>Sus scrofa</i>	pig
<i>Trichosurus vulpecula</i>	brushtail possum

### 7.3 Birds - native

<i>Anarhynchus frontalis</i>	wrybill; ngutuparore
<i>Anas aucklandica chlorotis</i>	brown teal; pateke (historical)
<i>Anas gracilis</i>	grey teal; tete
<i>Anas rhynchos</i>	Australasian shoveler; kuruwhengi
<i>Anas superciliosa superciliosa</i>	grey duck; parera
<i>Anthus novaeseelandiae novaeseelandiae</i>	New Zealand pipit; pihoihoi
<i>Apteryx mantelli</i>	North Island brown kiwi
<i>Ardea novaehollandiae</i>	white-faced heron
<i>Arenaria interpres</i>	turnstone
<i>Aythya novaeseelandiae</i>	New Zealand scaup; papango
<i>Botaurus poiciloptilus</i>	Australasian bittern; matuku
<i>Bowdleria punctata vealeae</i>	North Island fernbird; matata
<i>Bubulcus ibis</i>	cattle egret
<i>Calidris canutus</i>	lesser knot; huahou
<i>Charadrius bicinctus bicinctus</i>	banded dotterel; tuturiwhatu
<i>Charadrius melanops</i>	black-fronted dotterel
<i>Charadrius obscurus aquilonius</i>	northern New Zealand dotterel; tuturiwhatu pukunui
<i>Chlidonias leucopterus</i>	white-winged black tern
<i>Chrysococcyx lucidus lucidus</i>	shining cuckoo; pipiwharauroa
<i>Circus approximans</i>	Australasian harrier; kahu
<i>Daption capense</i>	Cape pigeon/titore
<i>Diomedea cauta cauta</i>	white-capped mollymawk
<i>Egretta alba modesta</i>	white heron; kotuku
<i>Egretta garzetta</i>	little egret
<i>Egretta sacra sacra</i>	reef heron; matuku-moana
<i>Eudyptula minor iredalei</i>	northern little blue penguin; korora
<i>Fulica atra australis</i>	Australasian coot
<i>Gallirallus australis australis</i>	North Island weka (historical)
<i>Gallirallus philippensis assimilis</i>	banded rail; moho-pereru
<i>Gerygone igata</i>	grey warbler; riroriro
<i>Haematopus ostralegus</i>	South Island pied oystercatcher; torea; toreapango
<i>Haematopus unicolor</i>	variable oystercatcher; torea;
<i>Halobaena caerulea</i>	blue petrel

<i>Hemiphaga novaeseelandiae</i>	New Zealand pigeon; kukupa
<i>Himantopus himantopus leucocephalus</i>	Australasian pied stilt; poaka
<i>Himantopus novaezelandiae</i>	black stilt; kaki
<i>Hirundo tahitica neoxena</i>	Pacific swallow, welcome swallow
<i>Hirundapus caudacutus</i>	spine-tailed swift
<i>Larus bulleri</i>	black-billed gull
<i>Larus dominicanus dominicanus</i>	(southern) black-backed gull, Dominican gull, karoro
<i>Larus novaehollandiae scopulinus</i>	red-billed gull; tarapunga
<i>Limosa lapponica</i>	bar-tailed godwit
<i>Morus serrator</i>	Australasian gannet; takapu
<i>Nestor meridionalis septentrionalis</i>	North Island kaka
<i>Ninox novaeseelandiae</i>	morepork; ruru
<i>Numenius phaeopus</i>	whimbrel
<i>Pachyptila desolata</i>	Antarctic prion
<i>Pachyptila tartar</i>	fairy prion
<i>Phalacrocorax carbo novaehollandiae</i>	black shag; kawau
<i>Phalacrocorax melanoleucos</i>	little shag; kawaupaka
<i>Phalacrocorax sulcirostris</i>	little black shag
<i>Phalacrocorax varius varius</i>	pied shag; karuhiruhi
<i>Platalea regia</i>	Royal spoonbill; kotuku-ngutupapa
<i>Plegadis falcinellus</i>	glossy ibis
<i>Pluvialis fulva</i>	Pacific golden plover
<i>Porphyrio porphyrio melanotus</i>	pukeko
<i>Porzana pusilla affinis</i>	marsh crake; koitareke
<i>Porzana tabuensis plumbea</i>	spotless crake; puweto
<i>Prosthemadera novaeseelandiae novaeseelandiae</i>	tui
<i>Pterodroma inexpectata</i>	mottled petrel
<i>Pterodroma macoptera gouldi</i>	grey-faced petrel, North Island muttonbird, oi
<i>Rhipidura fuliginosa placabilis</i>	North Island fantail; piwakawaka
<i>Stercorarius parasiticus</i>	Arctic skua
<i>Sterna albifrons sinensis</i>	eastern little tern
<i>Sterna caspia</i>	Caspian tern; taranui
<i>Sterna fuscata</i>	sooty tern
<i>Sterna birundo</i>	common tern
<i>Sterna nereis davisae</i>	New Zealand fairy tern
<i>Sterna striata striata</i>	white-fronted tern; tara
<i>Tachybaptus novaehollandiae</i>	Australasian little grebe
<i>Tadorna variegata</i>	paradise shelduck; putangitangi
<i>Tbalassoica antarctica</i>	Antarctic petrel
<i>Todiramphus sanctus</i>	New Zealand kingfisher; kotare
<i>Vanellus miles</i>	spur-winged plover
<i>Zosterops lateralis</i>	silvereye; tauhou
<i>Acridotheres tristis</i>	myna

## 7.4 Birds - introduced

<i>Alauda arvensis</i>	skylark
<i>Anas platyrhynchos</i>	mallard
<i>Branta canadensis</i>	Canada goose
<i>Callipepla californica</i>	Californian quail
<i>Carduelis carduelis</i>	goldfinch
<i>Carduelis chloris</i>	greenfinch
<i>Carduelis flammea</i>	redpoll
<i>Coturnix ypsilophorus</i>	brown quail
<i>Cygnus atratus</i>	black swan
<i>Emberiza citrinella</i>	yellowhammer
<i>Fringilla coelebs</i>	chaffinch
<i>Gymnorhina tibicen</i>	Australian magpie
<i>Passer domesticus</i>	house sparrow
<i>Pavo cristatus</i>	peafowl
<i>Phasianus colchicus</i>	pheasant
<i>Platycercus eximius</i>	eastern rosella
<i>Prunella modularis</i>	dunnock; hedge sparrow
<i>Sturnus vulgaris</i>	starling
<i>Synoicus ypsilophorus</i>	brown quail
<i>Turdus merula</i>	blackbird
<i>Turdus philomelos</i>	song thrush

### 7.5 Reptiles - native

<i>Caretta caretta</i>	loggerhead sea turtle
<i>Chelonia mydas</i>	green turtle
<i>Cyclodina aenea</i>	copper skink
<i>Dermochelys coriacea</i>	leatherback turtle
<i>Eretmochelys imbricata</i>	hawksbill sea turtle
<i>Laticauda colubrina</i>	banded sea snake
<i>Naultinus elegans elegans</i>	Auckland green gecko
<i>Oligosoma smithi</i>	shore skink
<i>Pelamis platurus</i>	yellow-bellied sea snake

### 7.6 Reptiles - introduced

<i>Litorea aurea</i>	golden bell frog
<i>Litorea ewingii</i>	brown tree frog
<i>Litoria raniformis</i>	southern bell frog
<i>Trachemys scripta elegans</i>	common slider

### 7.7 Fish - native

<i>Aldrichetta forsterii</i>	yellow-eyed mullet
<i>Anguilla dieffenbachii</i>	longfin eel
<i>Anguilla australis</i>	shortfin eel
<i>Galaxias argenteus</i>	giant kokopu
<i>Galaxias fasciatus</i>	banded kokopu
<i>Galaxias gracilis</i>	dwarf inanga
<i>Galaxias maculatus</i>	inanga

<i>Galaxias</i> sp.	dunelakes galaxias
<i>Gobiomorphus basalis</i>	Cran's bully
<i>Gobiomorphus cotidianus</i>	common bully
<i>Gobiomorphus gobiooides</i>	giant bully
<i>Gobiomorphus buttoni</i>	redfin bully
<i>Mugil cephalus</i>	grey mullet
<i>Neochanna diversus</i>	black mudfish
<i>Retropinna retropinna</i>	common smelt

#### 7.8      **Introduced**

<i>Cyprinus carpio</i>	koi carp
<i>Gambusia affinis</i>	gambusia
<i>Leuciscus idus</i>	orfe
<i>Ptenopharyngodon idella</i>	grass carp
<i>Scardinius erythrophthalmus</i>	rudd

#### 7.9      **Freshwater invertebrates - native**

<i>Amarinus lacustris</i>	freshwater crab
<i>Hydriella menziesii</i>	freshwater mussel
<i>Parenephrops planifrons</i>	koura; freshwater crayfish

#### 7.10     **Freshwater invertebrates - introduced**

<i>Craspedacusta sowerbyi</i>	freshwater jellyfish
-------------------------------	----------------------

# Appendix 8

## COMMON FAUNA NAMES USED IN TEXT

### 8.1 Native species

#### **ARTHROPODS**

black katipo *Latrodectus atritus*

#### **REPTILES**

Auckland green gecko	<i>Naultinus elegans elegans</i>
banded sea snake	<i>Laticauda colubrina</i>
green turtle	<i>Chelonia mydas</i>
hawksbill sea turtle	<i>Eretmochelys imbricata</i>
leatherback turtle	<i>Dermochelys coriacea</i>
loggerhead sea turtle	<i>Caretta caretta</i>
copper skink	<i>Cyclodina aenea</i>
shore skink	<i>Oligosoma smithii</i>
yellow-bellied sea snake	<i>Pelamis platurus</i>

#### **MAMMALS**

New Zealand fur seal	<i>Arctocephalus forsteri</i>
long-tailed bat	<i>Chalinolobus tuberculata</i>
lesser short-tailed bat	<i>Mystacina tuberculata</i>

#### **BIRDS**

Antarctic petrel	<i>Thalassoica antarctica</i>
Antarctic prion	<i>Pachyptila desolata</i>
Arctic skua	<i>Stercorarius parasiticus</i>
Australasian bittern	<i>Botaurus poiciloptilus</i>
Australasian gannet	<i>Morus serrator</i>
Australasian harrier	<i>Circus approximans</i>
Australasian little grebe	<i>Tachybaptus novaehollandiae</i>
Australasian pied stilt	<i>Himantopus himantopus</i>
Australasian shoveler	<i>Anas rhynchos</i>
banded dotterel	<i>Charadrius bicinctus bicinctus</i>
banded rail	<i>Gallirallus philippensis assimilis</i>
black shag	<i>Phalacrocorax carbo</i>
	<i>novaehollandiae</i>
black stilt	<i>Himantopus novaezelandiae</i>
black-backed gull	<i>Larus dominicanus dominicanus</i>
black-billed gull	<i>Larus bulleri</i>
black-fronted dotterel	<i>Charadrius melanops</i>
blue petrel	<i>Halobaena caerulea</i>
brown teal	<i>Anas aucklandica chlorotis</i>

cape pigeon	<i>Daption capense</i>
cattle egret	<i>Bubulcus ibis</i>
Caspian tern	<i>Sterna caspia</i>
common tern	<i>Sterna hirundo</i>
shag	<i>Phalacrocorax spp.</i>
bar-tailed godwit	<i>Limosa lapponica</i>
North Island fantail	<i>Rhipidura fuliginosa placabilis</i>
fluttering shearwater	<i>Puffinus gavia</i>
glossy ibis	<i>Plegadis falcinellus</i>
grey duck	<i>Anas superciliosa superciliosa</i>
grey-faced petrel	<i>Pterodroma macroptera gouldi</i>
grey teal	<i>Anas gracilis</i>
grey warbler	<i>Gerygone igata</i>
kuaka	<i>Limosa lapponica</i>
kuruwhengi	<i>Anas rhynchos</i>
lesser knot	<i>Calidris canutus</i>
little black shag	<i>Phalacrocorax sulcirostris</i>
little egret	<i>Egretta garzetta</i>
marsh crake	<i>Porzana pusilla affinis</i>
morepork	<i>Ninox novaezelandiae</i>
New Zealand dabchick	<i>Poliocephalus rufopectus</i>
New Zealand fairy tern	<i>Sterna nereis davisa</i>
New Zealand kingfisher	<i>Halcyon sancta vagans</i>
New Zealand pigeon	<i>Hemiphaga novaezealandiae novaezealandiae</i>
New Zealand pipit	<i>Anthus novaezealandiae novaezealandiae</i>
New Zealand scaup	<i>Aythya novaezealandiae</i>
North Island brown kiwi	<i>Apteryx mantelli</i>
North Island fernbird	<i>Bowdleria punctata vealeae</i>
North Island kaka	<i>Nestor meridionalis septentrionalis</i>
northern little blue penguin	<i>Eudyptula minor iredalei</i>
northern New Zealand dotterel	<i>Charadrius obscurus aquilonius</i>
Pacific swallow	<i>Hirundo tahitica neoxena</i>
paradise shelduck	<i>Tadorna variegata</i>
pied shag	<i>Phalacrocorax varius varius</i>
pukeko	<i>Porphyrio porphyrio melanotus</i>
red-billed gull	<i>Larus novaehollandiae scopulinus</i>
reef heron	<i>Egretta sacra sacra</i>
Royal spoonbill	<i>Platalea regia</i>
shag	<i>Phalacrocorax spp.</i>
shining cuckoo	<i>Chrysococcyx lucidus lucidus</i>
silvereye	<i>Zosterops lateralis</i>
sooty shearwater	<i>Puffinus griseus</i>
sooty tern	<i>Sterna fuscata</i>
South Island pied oystercatcher	<i>Haematopus ostralegus</i>
spine-tailed swift	<i>Hirundapus caudacutus</i>

spotless crake	<i>Porzana tabuensis plumbea</i>
spur-winged plover	<i>Vanellus miles</i>
tui	<i>Prosthemadera novaeseelandiae</i>
turnstone	<i>Arenaria interpres</i>
variable oystercatcher	<i>Himantopus unicolor</i>
white-capped mollymawk	<i>Diomedea cauta cauta</i>
white heron	<i>Egretta alba modesta</i>
white-faced heron	<i>Ardea novaebollandiae</i>
white-fronted tern	<i>Sterna striata striata</i>
white-winged black tern	<i>Chlidonias leucopterus</i>
wrybill	<i>Anarhynchus frontalis</i>
little shag	<i>Phalacrocorax melanoleucus brevirostris</i>

### **FISH AND MOLLUSCS**

banded kokopu	<i>Galaxias fasciatus</i>
black mudfish	<i>Neochanna diversus</i>
common bully	<i>Gobiomophus cotidianus</i>
dwarf inanga	<i>Galaxias gracilis</i>
dunelakes galaxias	<i>Galaxias sp.</i>
freshwater mussel	<i>Hydriella menziesii</i>
giant kokopu	<i>Galaxias argenteus</i>
inanga	<i>Galaxias maculatus</i>
longfin eel	<i>Anguilla dieffenbachia</i>
shortfin eel	<i>Anguilla australis</i>

### **8.2 Introduced species**

#### **MAMMALS**

brush-tailed possum	<i>Trichosurus vulpecula</i>
cat	<i>Felis catus</i>
dog	<i>Canis familiaris</i>
ferret	<i>Mustela furo</i>
house mouse	<i>Mus musculus</i>
pig	<i>Sus scrofa</i>
rat	<i>Rattus spp.</i>
stoat	<i>Mustela ermine</i>

#### **FISH**

grass carp	<i>Ptenopharyngodon idella</i>
koi carp	<i>Cyprinus carpio</i>
gambusia	<i>Gambusia affinis</i>
orfe	<i>Leuciscus idus</i>
rainbow trout	<i>Oncorhynchus mykiss</i>
rudd	<i>Scardinius erythrophthalmus</i>

#### **INSECTS**

Argentine ant	<i>Linepithema humile</i>

## GLOSSARY OF TERMS

(after Lux & Beadel 2006)

### **Biodiversity**

The variability among living organisms from all sources including, inter alia, terrestrial, marine and other aquatic ecosystems and the ecological complexes of which they are part; this includes diversity within species, between species and of ecosystems.

### **Buffer**

A zone surrounding a natural area which reduces the effects of external influences on the natural area. For example, shrubland or exotic plantations surrounding an indigenous remnant provide physical protection to it by reducing changes in wind and light, reducing the chance of weed infestation and providing a corridor for the movement of wildlife into and out of it, so that it is less isolated. Vegetation is often considered a buffer to waterways - riparian vegetation and wetlands protect both water quality and habitat from influences arising on the surrounding land.

### **Community**

An association of populations of plants and animals that occur naturally together in a common environment.

### **Diversity and Pattern**

Diversity is the variety and range of species of biological communities, ecosystems and landforms. Pattern refers to changes in species composition, communities and ecosystems along environmental gradients.

### **Ecological District**

A local part of New Zealand where geological, topographical, climatic and biological features and processes, including the broad cultural pattern, interrelate to produce a characteristic landscape and range of biological communities.

### **Ecological Region**

A group of adjacent Ecological Districts that have diverse but closely related characteristics; in some cases a single, very distinctive Ecological District.

### **Ecological unit**

Vegetation type occurring on a particular landform or soil or rock type.

### **Ecosystem**

Any interrelated and functioning assemblage of plants, animals, and substrates (including air, water and soil) on any scale, including the processes of energy flow and productivity (Myers et al. 1987).

**Endemic**

Occurring naturally in, and restricted to, a particular country, region or locality.

**Exotic**

Introduced to New Zealand; not indigenous.

**Forest**

Woody vegetation in which the cover of trees and shrubs in the canopy is > 80% and in which tree cover exceeds that of shrubs. Trees are woody plants > 10 cm diameter at breast height (dbh) and shrubs are woody plants < 10 cm dbh. Tree ferns > 10 cm dbh are treated as trees (Atkinson 1985).

**Habitat**

The part of the environment where a plant or animal lives. It includes both the living and non-living features of the area.

**Indigenous**

Native to New Zealand. This includes species that occur naturally in New Zealand and other places (e.g., migratory bar-tailed godwits, which return to New Zealand from Siberia every summer). Species that only occur in New Zealand are ‘endemic’.

**Landform**

A part of the land’s surface with distinctive naturally formed physical characteristics, e.g., hillslope, gully, ridge top, etc.

**Linkages/Corridors**

An area of habitat that links two or more other habitat areas. Depending on the habitat type, this linkage or corridor can comprise indigenous vegetation (e.g., forest, shrubland), exotic vegetation (e.g., pine forest), aquatic habitat (e.g., a farm pond) or any other feature that assists the movement of indigenous species between habitat patches. Where a linkage exists between habitats, the opportunities for genetic exchange within a species are greater, which enhances the viability of that population. For many species, in particular mobile fauna such as birds, a corridor does not have to be continuous to be usable. Small remnants can act as stepping stones between two larger habitats.

**Locally uncommon**

Considered rare within the study area; in this case within Kaipara ED (Northland).

**Natural area**

A tract of land that supports natural landforms and predominantly native vegetation or provides habitat for indigenous species; identified as a unit for evaluation of ecological quality and representativeness and has potential to be ecologically significant.

## **Naturalness**

The degree to which a habitat is modified and disturbed by human activity or introduced plants and animals and what natural values are retained despite these factors, i.e. to what extent native species are functioning according to natural processes.

## **Rarity**

This is a measure of commonness and may apply to entire ecosystems through to single species. It may refer to the conservation status of a species (see Appendix 3) or habitat type in any one of the following ways: formerly common but now rare; confined to a limited geographic area; at the limit of its range; or with a contracting or fragmented range. For example, old-growth alluvial swamp forests are an extremely rare ecosystem type in Northland, and indeed nationally, even though they contain no species that are regarded as rare in themselves.

## **Reedland**

Reedlands comprise 20-100% cover of reeds, which are tall erect herbs emergent from shallow water, having branched leaves or stems that are either hollow or have very spongy pith, e.g., raupo, *Baumea articulata* and kuta (Johnson & Gerbeaux 2004, adapted from Atkinson 1985).

## **Regionally significant**

Assessed by DOC to be either rare or threatened within the Northland Region.

## **Representativeness**

The extent to which an area represents or exemplifies the components of the natural diversity of a larger reference area (in this case, the reference area is the part of Kaipara ED that lies within Northland Conservancy). This implies consideration of the full range of natural ecosystems and landscapes that were originally found in the reference area and how well they are represented in today's environment. The reference period for 'original' land cover used for this study was the immediate pre-human era (late Holocene).

The identification and evaluation of the key representative natural areas in all Ecological Districts is the principal objective of the PNA Programme (Myers et al. 1987).

## **Riparian protection**

Riparian vegetation performs important protective functions to streams such as shading, sediment control, primary production, and provision of habitat linkages/corridors. Without riparian protection water temperature can rise, depleting the available oxygen and leading to the death of aquatic life. Leaf litter and woody debris enter the nutrient cycle of the stream providing food for the first consumer in the food web, e.g., mayflies, caddisflies, and stonefly. Riparian vegetation acts as a filter for non-point source water discharges.

## **Rushland**

Rushlands comprise 20–100% cover of rushes, which are *Juncus* spp. that have stiff, erect stems or similarly non-flattened leaves (Johnson & Gerbeaux 2004, adapted from Atkinson 1985).

## **Secondary vegetation**

Indigenous vegetation established after destruction or disturbance of the previous vegetation and which is essentially different from the original vegetation.

## **Shrubland**

Vegetation in which the cover of shrubs and trees in the canopy is > 50% and in which shrub cover exceeds that of trees. Trees are woody plants > 10 cm diameter at breast height (dbh) and shrubs are woody plants < 10 cm dbh. Tree ferns > 10 cm dbh are treated as trees. This definition includes both ‘shrubland’ and ‘scrub’ of Atkinson (1985).

## **Site**

An area of habitat or habitats identified during the field survey phase of the PNAP. Some small habitats occurring in close geographical proximity, with similar characteristics and functions, have been grouped and addressed as one site, e.g., small forest remnants and farm ponds within the same catchment.

## **Succession**

Succession is the dynamic process whereby one plant community changes into another, involving the immigration and local extinction of species, coupled with changes in the relative abundance of different plants (Crawley 1997). Change may be due to natural or human-induced factors, or both. Primary succession refers to the colonisation of a bare surface by vegetation (e.g., the greening of new volcano after it erupts out of the sea). Secondary succession refers to the process of colonisation and change after original vegetation has been destroyed, e.g., by fire, human-induced land clearance, etc.

## **Successional**

Describes a plant community in the process of succession.

## **Survey no.**

A sequential number given to each site (e.g., P09/001). The first letter and two figures refer to the NZMS 260 topographical map sheet that covers the site.

## **Treeland**

Vegetation in which the cover of trees in the canopy is 20–80%, with tree cover exceeding that of any other growth form, and in which the trees form a discontinuous upper canopy above either a lower canopy of predominantly non-woody vegetation or bare ground (Atkinson 1985). Treeland is mainly induced by grazing.

### **Vegetation type**

The most detailed vegetation descriptive name, defined by the composition of dominant canopy species, in order of abundance (e.g., taraire-puriri-kahikatea) and the structure of the vegetation, e.g., forest, treeland, shrubland, reedland, etc.

### **Viability**

The ability of an area's natural communities to maintain themselves in the long-term in the absence of particular management efforts to achieve this. Regeneration and vigour of species within these communities and stability of communities and processes contribute to viability.

### **Wetland**

An area of land that is permanently or intermittently waterlogged and supports flora and fauna adapted to wet conditions. Wetland is used as a broad definition for several types of aquatic systems, e.g., ponds, lakes, swamps, bogs, ephemeral wetlands, saltmarshes, mangroves, etc.
