

Land Snails from the Bay of Plenty Region

These snail species were collected in pitfall-flight-intercept traps in the Bay of Plenty region in the summers of 2003/04 to 2005/06. They represent a small sample of the (probably) 2000 species occurring in New Zealand, of which only about 500 have been named. It is thought that New Zealand may have 3-5 times the snail diversity of most other countries in the world, when calculated on a per unit area basis. Names such as 'Punctidae SPP2K n. sp. 50' refer to the 'Species 2000 List' of currently unnamed species.

Scale bar = 1 mm.

Snail Species List

1. *Allodiscus planulatus*
2. *Allodiscus urqubarti*
3. *Cavellia buccinella*
4. *Cavellia tararuaensis*
5. Charopidae SPP2K n. sp. 38
6. Charopidae SPP2K n. sp. 107
7. *Cytora maui*
8. *Flammocharopa accelerata*
9. *Flammulina chiron*
10. *Flammulina costulata*
11. *Flammulina perdita*
12. *Geminoropa vortex*
13. *Georissa purchasi*
14. *Huonodon bectori*
15. *Huonodon microundulata*
16. *Huonodon pseudoleioda*
17. *Laoma mariae*
18. *Obanella rimutaka*
19. *Paralaoma miserabilis*
20. *Pbrenacharopa pseudanguicula*
21. Punctidae SPP2K n. sp. 50
22. Punctidae SPP2K n. sp. 70
23. Punctidae SPP2K n. sp. 81
24. Punctidae SPP2K n. sp. 254
25. *Taguabelix francesci*
26. *Taguabelix viridula*
27. *Tbalassobelix zelandiae*
28. *Therasia traversi*
