

Land Snails from Paengaroa Mainland Island

These snail species were among those collected in pitfall-flight-intercept traps at Paengaroa Mainland Island in the summers of 2003/04 to 2006/07. They represent a small sample of the (probably) 2000 species occurring in New Zealand, of which only about 500 have been named. It is thought

that New Zealand may have 3-5 times the snail diversity of most other countries in the world, when calculated on a per unit area basis.

Names such as 'Punctidae SPP2K n. sp. 50' refer to the 'Species 2000 List' of currently unnamed species.

Scale bar = 1 mm.

Snail Species List

1. *Cavellia anguicula*
2. *Cavellia buccinella*
3. *Cavellia roseveari*
4. *Cavellioropa microrhina*
5. *Charopa bianca*
6. *Charopa coma*
7. Charopidae SPP2K n. sp. 107
8. *Delos coresia*
9. *Fectola trilamellata*
10. *Flammulina feredayi*
11. *Flammulina perdita*
12. *Georissa purchasi*
13. *Huonodon hectori*
14. *Laoma ciliata*
15. *Laoma mariae*
16. *Laoma nerissa*
17. *Mocella eta*
18. *Paralaoma allochroida*
19. *Paralaoma lateumbilicata*
20. *Paralaoma serratocostata*
21. *Pbenacharopa pseudanguicula*
22. *Pbrixgnathus ariel*
23. Punctidae SPP2K n. sp. 50
24. Punctidae SPP2K n. sp. 81
25. *Suteria ide*
26. *Therasia traversi*
