

# Land Snails from Wanganui Conservancy

## Snail Species List

1. *Allodiscus kakano*
2. *Cavellia anguicula*
3. *Cavellia irregularis*
4. *Cavellia rosevearei*
5. *Cavellioropa microrbina*
6. *Cavellioropa vortex*
7. *Charopa parva*
8. *Charopa pilsbryi*
9. *Charopidae n. sp.*
10. *Delos coresia*
11. *Fectola trilamellata*
12. *Flammocharopa accelerata*
13. *Flammulina feredayi*
14. *Georissa purchasi*
15. *Laoma nerissa*
16. *Laoma pirongiaensis*
17. *Obanella rimutaka*
18. *Otoconcha n. sp.*
19. *Paralaoma allocbroida*
20. *Paralaoma lateumbilicata*
21. *Paralaoma serratocostata*
22. *Phenacobelix pilula*
23. *Phrixgnathus ariel*
24. *Phrixgnathus erigone*
25. *Pseudodallodiscus ponderi*
26. Punctidae SPP2K n. sp. 19
27. Punctidae SPP2K n. sp. 50
28. Punctidae SPP2K n. sp. 56
29. Punctidae SPP2K n. sp. 69
30. *Serpho kivi*
31. *Suteria ide*

These snail species were among those collected in pitfall-flight-intercept traps in Wanganui Conservancy in the summers of 2003/04 to 2005/06. They represent a small sample of the (probably) 2000 species occurring in New Zealand, of which only about 500 have been named. It is thought that New Zealand may have 3–5 times the snail diversity of most other countries in the world, when calculated on a per unit area basis.

Names such as 'Punctidae SPP2K n. sp. 50' refer to the 'Species 2000 List' of currently unnamed species.

Scale bar = 1 mm.
