

Outdoor art projects

CREATE IN NATURE

Students will need:

- **sketch nature:** piece of card, rubber and pencil
- **nature rock art:** small rock, paints, markers and/or pens

Sketch Nature

- Take your art supplies outside and find somewhere or something in nature to draw.
- It might be a leaf, a landscape, an insect, a flower or an atua – Tāne-mahuta, Tāwhiri-mātea, Tangaroa.
- Try drawing your nature in many different ways – in detail, as shapes, with different colours.

Nature Rock Art activity

- Try copying your drawing (or something new) onto a rock using paint or markers.

Classroom activity

Sketch nature: Create a classroom collage of all your beautiful nature sketches.

Nature rock art: Take your rock home and gift it to your whānau or hide your rock in the school grounds for another student to find and enjoy. You could draw a 'treasure' map to help your classmates find it.
