

FIGURE 5. Plot 11, outside exclosure, May 1997.

(Above) Feral Saxon Merino ram, one of a large flock using the area.

(Below) Close-cropped grass and recent pig rooting. There is no sign of forest regeneration.

FIGURE 6. (Above) The Half Chain of Waipaua Block. Plot 12 enclosure is tucked inside the bush (tarahinau forest) here.  
(Below) The enclosure fence, May 1997. Animals have been excluded from the left-hand side for two years. Already there is a visible difference in the ground cover.
