Figure 3. Presence/absence of waterbird species recorded on Rotorua lakes during the 1996 bird counts.

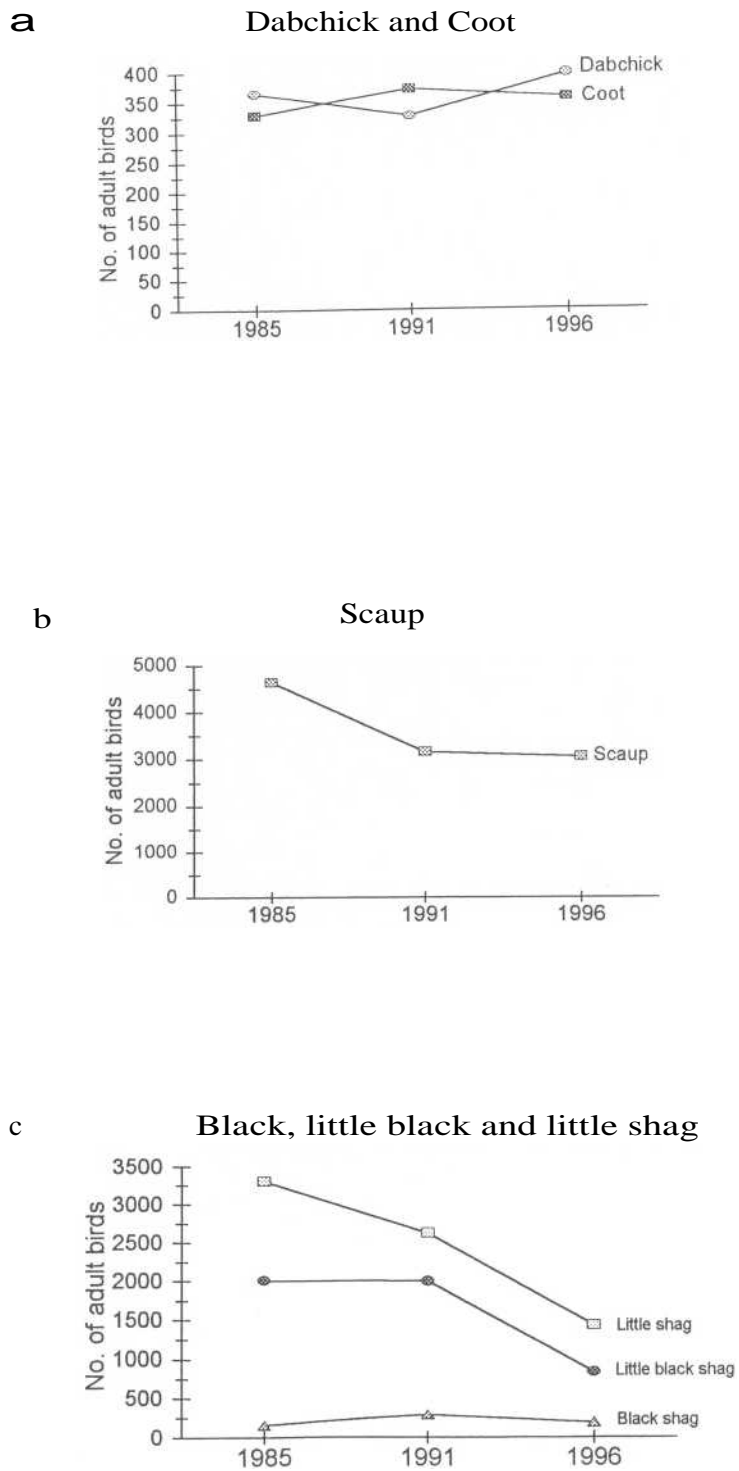

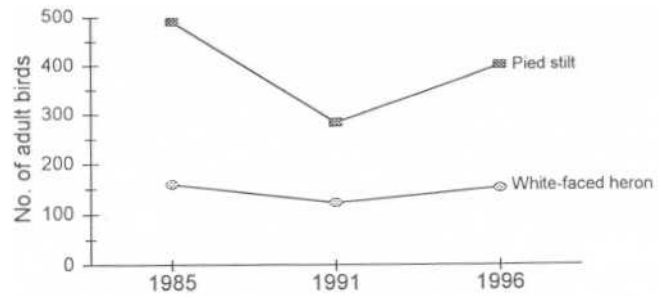

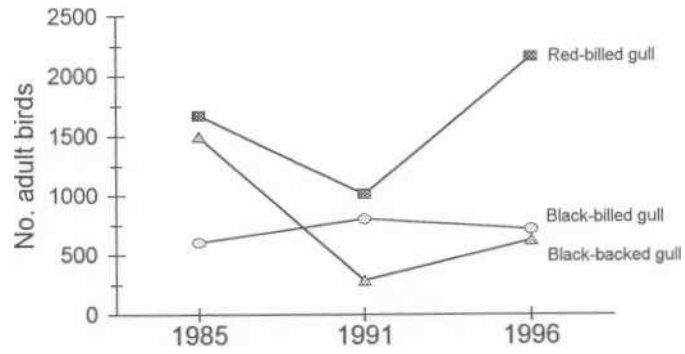

Figure 4 (*above and opposite*). Total count (all lakes combined) of waterbird species on Rotorua lakes in the summers of 1985, 1991, and 1996.

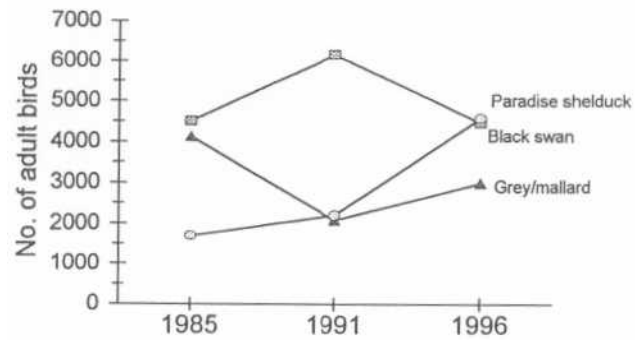

d White-faced heron and Pied Stilt

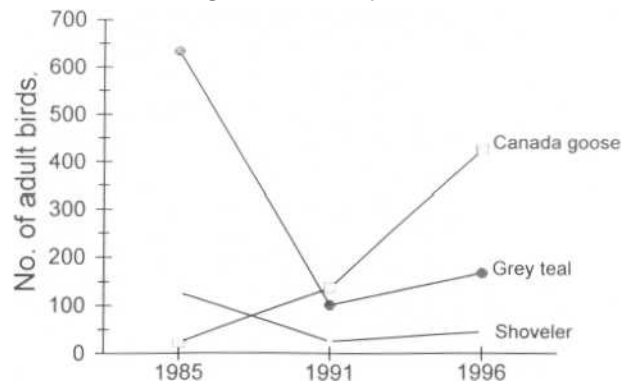

e Gulls

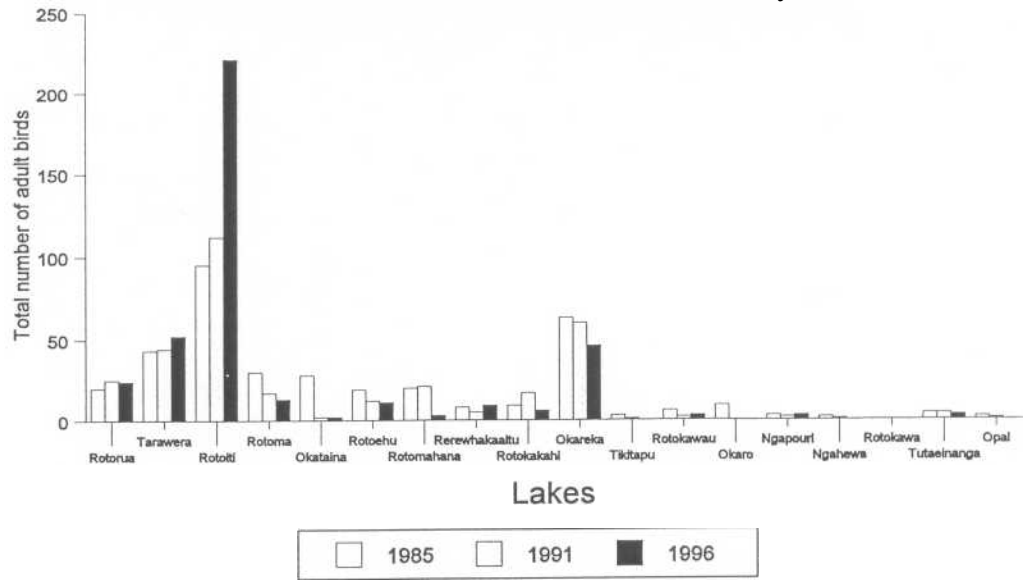

f Swan, Grey/mallard, Paradise shelduck

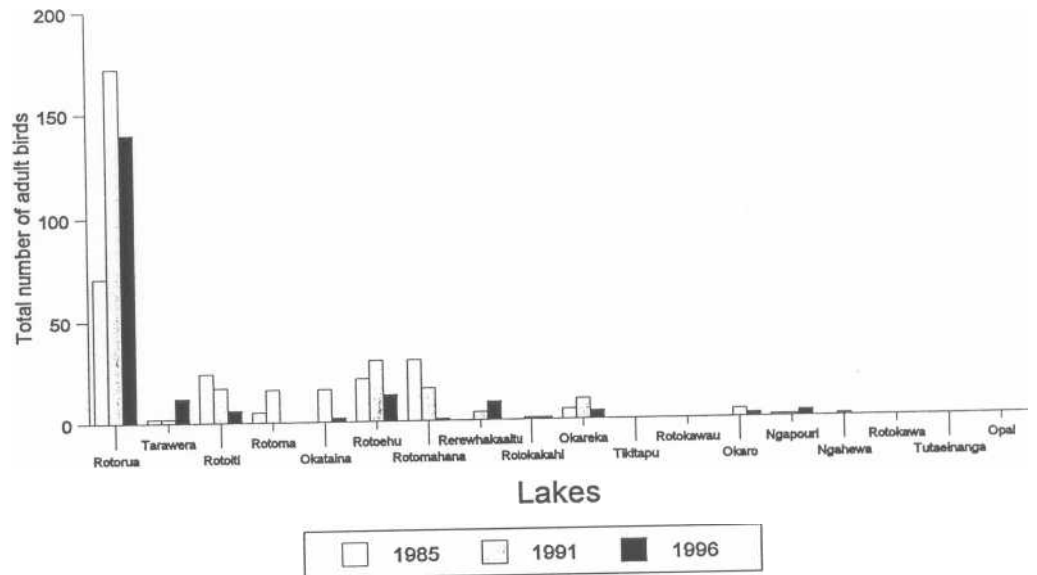

g Canada goose, Grey teal, Shoveler

a Total no. of dabchick recorded at each count by lake

b Total no. of black shag recorded at each count by lake

c Total no. of little black shag recorded at each count by lake

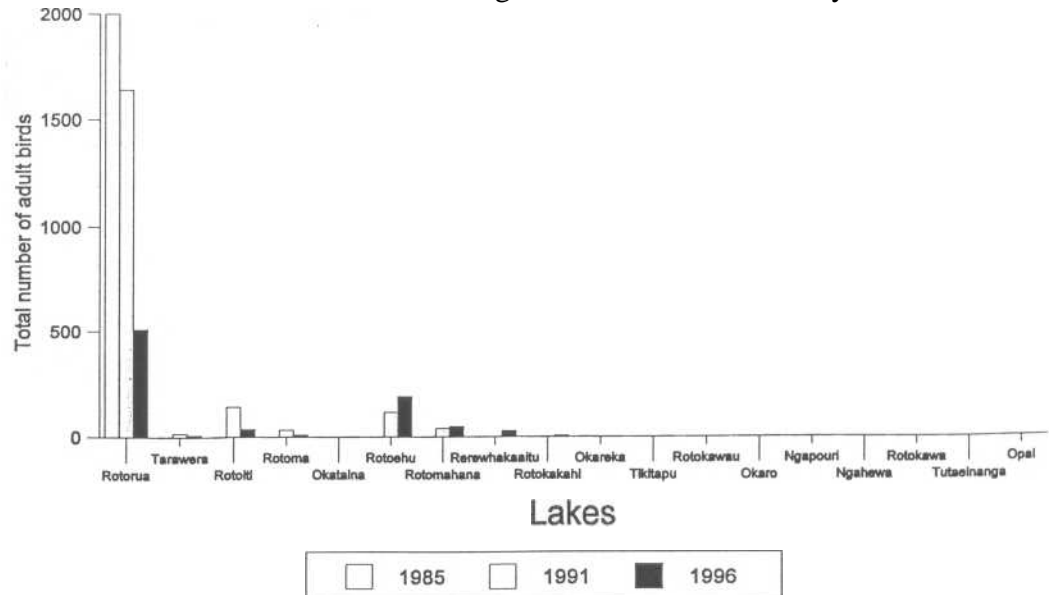

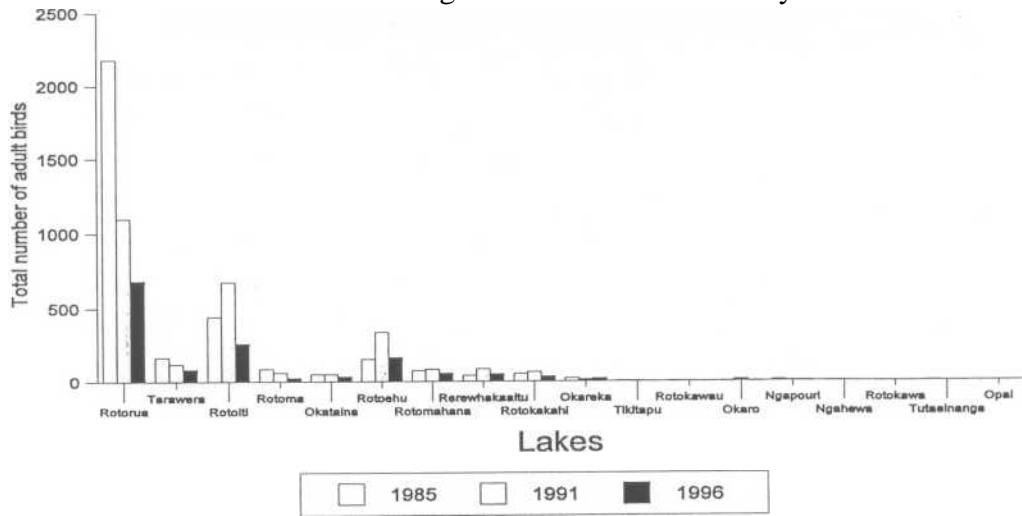

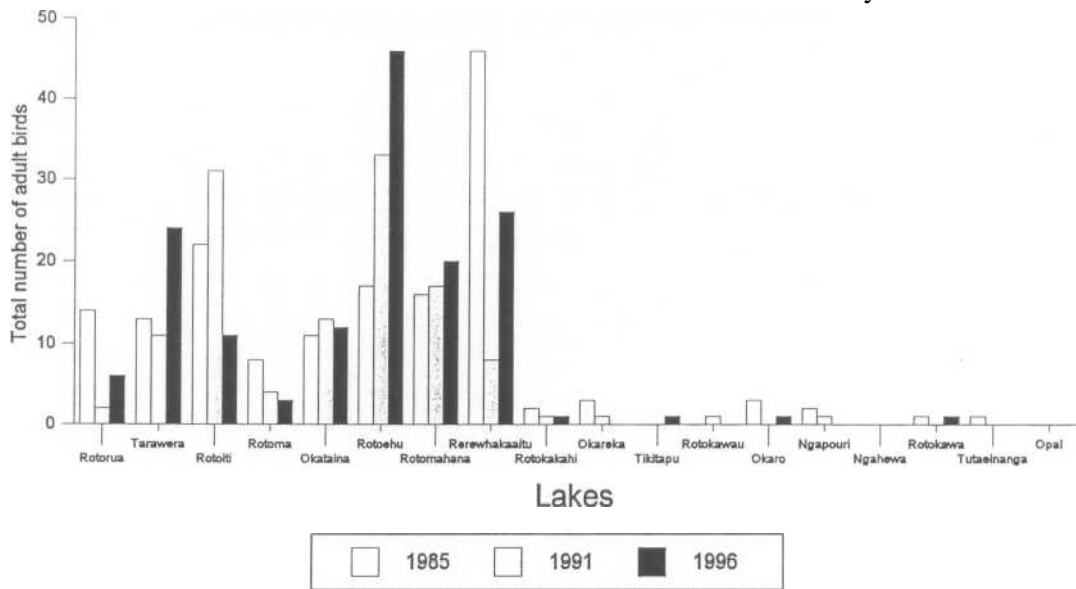

Figure 5 (above and next five pages). Total count of waterbird species (shown separately) in 1985, 1991, and 1996 on all lakes.

d Total no. of little shag recorded at each count by lake

e Total no. of white-faced heron recorded at each count by lake

f Total no. of black swan recorded at each count by lake
